

hands-on educational Fun Workshops

- i. Sea Explorer Workshop (4 – 6 yrs old)**
- ii. Marine Life Workshop I (7 – 12 yrs old)**
- iii. Marine Life Workshop II (13 – 18 yrs old)**

Inspiring programs for all budding marine biologists, these fun-filled Sea Explorer or Marine Life Workshops will surely deepen their understanding and appreciation of the oceans and its wonders.

Specially designed workshops catering to students from different levels will greatly benefit them, as our experts impart their knowledge on what they have always wanted to know about marine life. We focus on key concepts and integrate various subjects like Science, Geography, Maths and even English!

Workshops include slide presentation, eco-games, hands-on experiments, ocean discovery tour, dissections, marine animals feeding and more! Let's make learning fun by taking the classroom environment to another level, deep within Underwater World Singapore.

Program Highlights/Themes:

i. Sea Explorer Workshop (2hrs)

A great introductory program on the marine world, this workshop presents a fresh perspective to the marine world and its diverse residents. It includes: Eco-games, stories, an activity-based tour of the oceanarium, plus some follow-up activities to take home!

ii. Marine Life Workshop I (2.5hrs)

Understand the colourful characters that live in the ocean by choosing the theme you like:

- Marine Diversity – Learn how marine life is classified!
- Food Web – Find out about the complex relationships amongst various marine animals!
- Marine Habitats – Discover the different kinds of communities in various sea habitats.

iii Marine Life Workshop II (3hrs)

You can choose from 2 fascinating themes:

- People and the Oceans – Learn how to treat the ocean with respect. Find out how the world has been neglecting this natural treasure, what you can do to protect and preserve marine life and its resources.
- Survival – Unravel the secrets of survival of many marine creatures.
