---

How do sea cows celebrate their birthdays? Why, with cake, of course, albeit with sea grass. The Underwater World Singapore (UWS) yesterday marked Gracie's 12th year there with a cake for the dugong. Gracie, orphaned at a young age and rescued by UWS, is one of the world's few successful cases of the endangered species thriving under human care.

From today until Feb 9, UWS visitors can witness cake parties and dive with Gracie at discounted prices.
